Department of Transportation—Federal Aviation Administration

Supplemental Type Certificate

Number SA00373LA

This certificate, issued to

Aero-Engines, Inc. 3033 N. Coolidge Avenue Los Angeles, CA 90039

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part of the

Regulations

Original Product - Type Certificate Number: Make: * See attached FAA Approved Model List (AML) No. SA00373LA for list of approved airplane models and applicable airworthiness regulations.

Description of Type Lesign Change: Installation of engines, modified with the addition of a Jacobs shielded ignition harness, to aircraft listed on the AML per Aero-Engines, Inc. Master Drawing List AEIMDL01, revision 4, dated May 19, 1997 or later FAA approved revision. This installation must be done concurrently with STC SE00372LA which installs the shielded ignition harness to the engine.

Limitations and Conditions: The approval of the change in type design applies to the basic airplane of the specified models that are otherwise unmodified. This approval should not be extended to other specific airplanes of these models on which other previously approved modifications are incorporated, unless it is determined that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effects upon the airworthiness of that airplane. The STC holder will provide a written permission statement to each person it authorizes to use this certificate to alter the product.

This certificate and the supporting data which is the basis for approval shall remain in effect until sur-

rendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the

Federal Aviation Administration
